THE BUTCHER - ONE PAGE HTML5 TEMPLATE

DOCUMENTATION (LAST UPDATE - AUG 08 2015)

Dear Customer, thank you for purchasing The ButcherTemplate.

The Butcher is an **HTML5, CSS3 and Javascript Template**, totally **responsive**, using the acclaimed **Bootstrap 3.0 Framework**.

The Butcher compatible with:

- **IE 10**
- **Google Chrome**
- **Opera**
- **Safari**
- **Mozilla Firefox**

Html respect the **W3C Standards rules**.

The Butcher Offers the possibility to Choose between **5 Different Theme Options**:

- **Original Theme**
- **Light**
- **Turtledove**
- **Darkbrown**
- **Zephir**

They Are **simple CSS Files** *Inside each HTML Head*.

Contact Us: info@ade-concept.com - Fb Page: [Click Here](#) - Twitter Page: [Click Here](#)

Setting Up your Favourite Theme

Open file main.js in js folder and go to row 500:

```
Theme.setStyleSheet();
```

inside parentheses you just have to declare your favourite schema, choosen in template preview between those names:

- **light**
- **turtledove**
- **darkbrown**
- **zephir**

Here is a example of use:

```
Theme.setStyleSheet('light');
```

If you want to **use the Default Theme**, please leave parentheses *blank*.

How to Activate Menu Second Version (with Height Resizing)

We Experienced that some users needed a Menu version without resizing animation effet in Height, because they experienced a Logo Cut. We decided to put this feature as default to prevent this problem.

Contact Us: info@ade-concept.com - Fb Page: [Click Here](#) - Twitter Page: [Click Here](#)

If you want to see how second version works, Open file
index_menu_second_version.html

```
<body>
  <div class="wrapper animation">
    <!-- BEGIN TOP -->
    <div class="main-top" data-version="version2">
      <!-- BEGIN TOP-BAR -->
      <div class="top-bar">
```

data-version="version2" declaration is needed to switch menu to second version.

Structure

Template is Structured following this schema:

```
<div class="wrapper">
  <div class="main-top">
    <nav></nav>
  </div>
  <section class="waypoint"></section>
  <footer></footer>
</div>
```

It has a simple Horizontal menu where you can click and go directly to the anchored areas of the page:

Contact Us: info@ade-concept.com - Fb Page: [Click Here](#) - Twitter Page: [Click Here](#)

```
<nav class="navbar navbar-default" role="navigation">
    <div class="container menu-shadow">
        <div class="navbar-header">
            <button type="button" class="navbar-toggle"
data-toggle="collapse" data-target="#navbar-butcher">
                <span class="icon-bar"></span>
                <span class="icon-bar"></span>
                <span class="icon-bar"></span>
            </button>
            <div class="logo">
                <a href="#" class="navbar-brand">The
Butcher - Steak House</a>
            </div>
        </div>
        <div class="navbar-collapse collapse"
id="navbar-butcher">
            <ul class="nav navbar-nav navbar-right">
                <li><a href="#home"><i
class="icon-top-menu icon-home hidden-xs"></i>Home</a></li>
                <li><a href="#about-us"><i
class="icon-top-menu icon-about-us hidden-xs"></i>About Us</a></li>
                <li><a href="#menu"><i
class="icon-top-menu icon-our-offers hidden-xs"></i>Menu</a></li>
                <li><a href="#gallery"><i
class="icon-top-menu icon-gallery hidden-xs"></i>Gallery</a></li>
                <li class="dropdown">
                    <a href="#"
class="dropdown-toggle" data-toggle="dropdown"><i class="icon-top-menu icon-blog
hidden-xs"></i>Blog <span class="caret"></span></a>
                    <ul class="dropdown-menu
nav-list" role="menu">
                        <li><a
class="ansition-link" href="blog.html">Overview Page</a></li>
```

Contact Us: info@ade-concept.com - Fb Page: [Click Here](#) - Twitter Page: [Click Here](#)

```

<li><a
class="animsition-link" href="blog-single-entry-page.html">Single Entry Page</a></li>
</ul>
</li>
<li><a href="#reservation"><i
class="icon-top-menu icon-reservation hidden-xs"></i>Reservation</a></li>
</ul>
</div>
</div>
</nav>

```

All section contains the “**data-hash**” Attribute, which allows you to find the section:

```
<section class="waypoint" id="about" data-hash="about-us"></section>
```

Animations

Animations are made using **animation.css** library, which can be consulted from this link:

<http://daneden.github.io/animate.css/>

Example of use:

```

<div class="headline-group">
    <i data-animation="fadeInUp fast" data-delay="0"
class="headline-icon icon-about-us animated"></i>
    <h2 class="text-shadow-style"
data-animation="fadeInUp fast" data-delay="0.2">Our Restaurant</h2>

```

Contact Us: info@ade-concept.com - Fb Page: [Click Here](#) - Twitter Page: [Click Here](#)

```
<h6 data-animation="fadeInUp fast"
data-delay="0.5">Our Buffalo Meat is a Pleasure for your Senses! Call Us and choose your
Seat</h6>

</div>
```

data-animation: takes 2 values: speed and animation

data-delay: receives takes a Value between 0 and 1

Use **jquery.ansition.js** library for animated page transitions, which can be consulted from this link:

<http://blivesta.github.io/ansition/>

Example of use:

```
<div class="wrapper ansition">
  <a href="blog.html" class="ansition-link">Blog</a>
</div>
```

Parallax

Parallax uses **jquery.stellar.js** library.

If you want to use **Parallax effect**, this is the syntax:

```
<div class="parallax-wrapper">
```

Contact Us: info@ade-concept.com - Fb Page: [Click Here](#) - Twitter Page: [Click Here](#)

```
<div class="parallax" data-stellar-background-ratio="0.5"
data-stellar-vertical-offset="-500">
    <div class="container">
        <div class="row">.....
        .....
    </div>
</div>
```

Menu

Food Menu is Designed as a List With icons and it has an **Ajax Function** which calls the entire list, showing the remain dishes.

Services and Testimonials

The structure has been realized using owl-carousel Library.
This is the syntax to realize the Carousel:

```
<div class="owl-carousel">
    <div>
        .....
    </div>
</div>
```

Contact Us: info@ade-concept.com - Fb Page: [Click Here](#) - Twitter Page: [Click Here](#)

Gallery

Gallery has been realized with **Masonry** and **isotope library**. For More information, please click below:

<http://masonry.desandro.com/>

<http://isotope.metafizzy.co/>

Blog

Blog Section is on the main page, showing the last two Articles. By clicking on Read More Button, you'll be redirected to Blog Section. Each section can be read in a full page Article item.

Testimonials

This Section is Designed with **Jquery Stellar** for **Parallax** and **Owl Carousel**. For More Information, please consult authors here:

<http://markdalglish.com/projects/stellar.js/> ,

<http://owlgraphic.com/owlcarousel/>

Reservation

- **jquery.browser.mobile.js** - Javascript library for check if the browser is a mobile device
- **retina.js** - Javascript library for serve high-resolution images to devices with retina displays
- **main.js** - The main Layout File: it can be modified

Contact Us: info@ade-concept.com - Fb Page: [Click Here](#) - Twitter Page: [Click Here](#)

PSD files

Layout is well organized in Layers and Folders. The structure is visually ordered, respecting all the blocks in the HTML Files. You'll see 3 Different PSD Files, containing those sections:

- **Home (One Page with all sections)**
- **Blog Section**
- **Single Article (Blog Section)**

All layers are correctly named for a direct and simple use. Where dimensions are important, you'll see the right dimension to prepare, shown in the template. For a better use, **Template is organized in nested smart objects**, containing high resolution images (for retina purposes) and guides inside.
